FOR YOUR KITCHEN

corporate

From Konya to all over Turkey*Quality service*

FERİS aims to successfully continue its knowledge in the field of industrial kitchen equipment and its mission, which it has set with its experience since its founding.

**For Kitchen and Industrial***Fresh Touch*

FERİS has renewed itself constantly by following the developments of the sector and technology closely, and has diversified its range of products and services in this direction. In addition to the industrial kitchen equipment, we have offered our customers many products in which we have also paid attention to quality, design and aesthetics. To meet the demands at home and abroad, we continue to work with the same determination as on the first day, without interruption.

In order to build long-term cooperation with our customers, we provide both excellent service and quality products. We strive to meet the needs of our customers and build a close, trusting relationship.

Our vision is to be an honest trader, constantly evolving with superior service and product quality, supporting innovation and embracing transparent and responsible principles. Our values constitute the core of our corporate culture and inspire us for the future.

To meet the needs and expectations of our customers, we have embraced the values of honesty, integrity, being human-oriented, ethical behavior and environmental and social sensitivity. In keeping with these principles, we will continue to serve our country and nation with all of our employees, with superior business ethics and an honest work ethic.

Cast Sandwich Toaster

features

FERIS Cast Sandwich Toaster is specially designed for your kitchens to toast the sandwich we ate at the sandwich toast store we visited at the urging of a friend or heard is famous in our daily lives to make it better at your home and with your ingenuity.

The hotplates of our product are made of pig cast iron (cast iron), they are fixed and in size of **24 cm x 32 cm** (slightly larger than A4 paper).

The hotplates are 6 kg and the total weight of our product is 9 kg.

The hotplates are coated with solvent and lead-free resin-based food-grade paint. As-cast or teflon-coated varieties are available upon request.

Our product is **1800** watts and the heat is kept under control with a **50/300** thermostat.

You can understand whether the product you are going to buy is cast or not by checking the weight of the product (cast sandwich toasters weigh at least 5-9 kg).

The dimensions of the box are **17x34x36 cm** and its volumetric weight is **7**. The product weighs **±9 kg**.

Electric Katmer Pan

features

Our product has a diameter of **53 cm** and is available in two finishes: enameled or Teflon coated, in four different colors and decorations for your kitchen.

In our product, a **50/300** thermostat is used to control the heating temperature with a resistance of **2200** watts.

You can make sac böreği, bazlama, katmer and gözleme perfectly.

What you must remember when buying our product is that you can not expect the performance of metal plates or wood stoves that our grandmothers and mothers put on the stove in our garden.

Because wood fire and heat is very high.

With the heat control button in our product, you can turn your ingenuity into taste as you like.

The dimensions of the box: **16x53x53 cm** its volumetric weight is **15**. The product weighs **±4.75 kg**.
